PROFILE

Frontend Developer with hands-on experience building responsive web applications using React, Next.js, TypeScript, and Tailwind CSS. Experienced in developing user-focused interfaces, integrating REST APIs, and collaborating within agile teams during a frontend development internship. Passionate about writing clean, maintainable code and continuously improving through real-world projects and modern web technologies.

WORK EXPERIENCE

- Fanaye Technologies** June 2024 – September 2024
Frontend Developer Intern (Hybrid)
 - Developed responsive web interfaces using React and TypeScript.
 - Built reusable UI components for scalable applications.
 - Integrated REST APIs to display dynamic data.
 - Collaborated with developers using Git and GitHub.
 - Improved application performance and user experience.
 - Fixed bugs and implemented new frontend features.

FEATURED PROJECTS

-  **KIDAME E-Commerce**
 - React • TypeScript • Tailwind CSS
 - Built a responsive e-commerce interface.
 - Designed reusable components.
